

LAN Standards, News & Trends Report for the FOLS - Brief

Herbert V. Congdon II, PE
Tyco Electronics
Updated: January 2009

May 13, 2010

Top Stories

- A lot of documents under revision – opportunity abounds
- Fiber Expertise – still fractured in TR-42; losing opportunity
 - TR-42.8 Disbanded – moved to TR-42.11
- OM-4 Fiber Specs – published, but fiber needs to be allowed
 - OM-4 included in 40/100G (150m), but not an objective
- PONs – under study, comments submitted to draft documents
- 10G – confusion on copper side, may be an opportunity to strike!
- Plastic Optical Fiber – under consideration for industrial
- POE+ - published by IEEE
